CARBON, ALBERTA, THURSDAY, JANUARY 22, 1931

\$2.00 A YEAR IN ADVANCE

## TROCHU CURLERS PLAY AT CARBON SATURDAY LAST

Following the custom prevailing in many sections of the Province this year the Trochu Curling Club sent two rinks to Carbon on Saturday night to play a friendly game with members of the local curling club. Carbon curlers won both games played here on Saturday, S. Reid winning from Bye 10-9; and H. Jealous winning from Finley 13-9. The following were curlers on the rinks, the first named being the skip:

Trochu—Bye, Dodd, Gillespie, Weisenberger, Finley, Calder, Dansforth, C. Ross.

Carbon—H. Jealous, Joe Greenan, S. Carney and J. Spence. S. Reid, R. Skerry, A. Poxon and J. Atkinson.

## FARMERS AIDED TO MEET DEBTS, STATES BROWNLEE

"We are receiving very satisfactory co-operation from the various financial interests in the province in connection with giving the farmers in the province an opportunity to meet their obligations following the rather serious crop situation encountered this fall," Premier Brownlee told a newspaper man last week.

The government had met all of the groups, including automobile, finance corporations, implement dealers, mortgage corporations and banks, and hoped to meet the Retail Merchants' Association representatives in the very near future.

Every opportunity to give the farmers a chance to meet their obligations had been given, said the Premier, adding that such action on the part of the various groups was greatly appreciated by the provincial government.

## CANADIAN NATIONAL MARKSMAN ATTAINS HONORS

Although the wild and woolly frontier days are gone and the last of the famous gunman have vanished from the prairies, the west may still boast of the skill of her sons with pistol and six-shooter. The continuing superiority of the western plains was evidenced during the past year with the conclusive victories of R. G. Pickrell, of the Canadian National Railways police at Winnipeg, in winning the International Pistol championship at Springfield, Mass., the United States rapid fire championship and all senior Canadian titles.

Shooting at a distance of 50 yards in the meet at Springfield, which was held under the auspices of the United States Revolver Association, Pickrell captured premier honors in the International pistol championship with a magnificent score of 531 out of a possible 600, equalling the world's record. His total in winning the rapid fire title was 216 of a possible 250. He also placed fourth in the United States revolver championship and sixth in the United States pistol event.

In addition to his conquests afield, Pickrell carried off all the senior Canadian championships for the third successive year. He took first place in the Canadian revolver event with 463 of a possible 500, first in the pistol event with 467 of a possible 500 and

## NOMINATION DAY FEB. 2, 1931

Nomination for one Village Councilor this year will take place on Monday, February 2nd. This year S. J. Garrett, mayor of Carbon, automatically drops out, he having served two years on the council, and this vacancy must be filled. The other two councillors, Messrs. McQuade and Flaws, will hold office again this coming term. Should there be more than one nomination for the vacancy on the council, an election will take place on Monday, February 9th.

## JASPER FILM TO BE SHOWN IN WESTERN CANADA

Jasper has crashed its way into the world of the silver screen and all but taken the glory away from a half dozen renowned movie stars. Screened for the major part in Jasper National Park amid the snow-clad peaks of the Athabasca and Colin ranges, the Fox Films feature presentation "Under Suspicion" has been released for Canadian showing and will shortly appear in western theatres.

Only superb action and the matchless voice of the male star, J. Harold Murray, prevent the grandeur of the scenery snatching the attention of the beholder and rivetting it to the gorgeous pictures framed amid the eternal snows. It is an almost breath-taking experience to see a story of romance in the Royal Canadian Mounted Police cradled in the bosom of this glorious section of the Rockies.

Pretty Lois Moran has an exquisite setting for her role as daughter of the presiding officer of the Mounted Police detachment. Incidentally, Betty Sandford Smith, attractive Toronto girl, doubled for Miss Moran in some of the scenes. The Irish comedy team, Kerrigan and Connelly, have made good use of Jasper Park Lodge in some delightfully humorous scenes. One of the thrills of the picture is a forest fire.

Manners do change. In 1900 it was: "Shall we join the ladies?" Now it is: "Where the hell's my wife?"

It won't do any good to spank a girl after she is sixteen, but it must be lots of fun.

If the quotations continue to fall the time may be near when wheat will be considered a weed.

Be cautious. When a woman pulls down her skirt in public before thou proclaim her modesty, do thou inquire whether she hath not bow legs.

Great Britain is closing eighteen more prisons. Just the things, we imagine, for some of these American antique collectors.

Of course you've heard of the Scotsman who crowned his wife because she rinsed out his shaving brush.

first in the rapid fire championship with 142 of a possible 150. He also topped the list in the revolver grand aggregate, held in conjunction with the rifle meet at Ottawa.

## Hockey Notes

Carbon suffered two defeats in the senior hockey realm the past week, at Three Hills on Friday when they lost 6-1 and at Carbon on Sunday afternoon with the Midland team of Drumheller, when they again lost with a 6-2 score.

At Three Hills the boys put up a very good game and at the end of the first period there was no score. In the first few minutes of the second period the score was 1-1 and before the end of the period Three Hills had run up a 6-1 score on Carbon. The last period was quite fast, but ended with no scoring for either side.

The line-up for this game was: Goal L. Halstead; Defence, Bruce Ramsay, Hugh MacDonald and Alex Poxon. Forwards, Jack Spence, S. Hay and E. Rouleau, J. Jones, W. Poxon and C. Oliphant.

At Carbon on Sunday a somewhat similar game was played with the Midland team from Drumheller, although the dust storm and wind marred the ice and made skating slow and sluggish. At the end of the second period of this game the score was 2-1 for Drumheller, but the last period proved disastrous for the local boys, the visitors running in four more goals in this period while Carbon could not get a score. The game ended 6-2 for the Midland boys.

The line-up for Carbon for this game was somewhat changed: Goal, L. Halstead; Defence, A. Poxon and H. MacDonald; Forwards, B. Ramsay, E. Rouleau and C. Oliphant; J. Jones, W. Poxon and H. Edwards.

Jack Spence refereed the game.

The Belseker hockey team played Carbon here on Tuesday night and again the local team went down to defeat. The score was 4-1. The dust storms ruined the ice and during the game the players' skates lost their edge and the spectators witnessed some merry spills before the game ended.

## CARBON OLD TIMERS TO GET TOGETHER ON JANUARY 27

The Carbon Old Timers Association will hold their Seventh Annual Whist Drive and Dance in the Farmers' Exchange hall on Tuesday evening, January 27th, commencing promptly at 8.30 p.m. This year owing to the financial position of the community at large, the admission fee has been reduced to 75c, this amount to include membership fee for the year 1931, besides the admission to the entertainment.

All ladies are requested to bring refreshments.

## JACK BARBER SHOOTS EAGLE

While out hunting last Thursday, Jack Barber was successful in getting a huge eagle, the bird being shot in the coulee south of his home. When the huge bird was measured it was found to have a wing spread of over seven feet.

PASTURE LAND—5 quarters pasture land for rent. 50 to 75 horses wanted. 75c per head. Emil Yanke, Belseker.

FOR SALE—Upland Hay, \$11 per ton f.o.b. Phone 1311, E. B. DeWitt Crossfield.

### Keep Cool.

Foreign Minister Briand, of France, when recently taken to task by one of the Nationalist leaders who charged him with lack of firmness in dealing with the existing situation, answered with some show of spirit: "I believe the best service one can render his country just now is by remaining cool."

Another state executive, Marcus Aurelius, gave practically the same counsel in the second century of this era when he said: "Do not be whirled about, but in every movement have respect to justice, and on the occasion of every impression maintain the faculty of understanding." Or, more briefly, keep cool.

The advice to keep cool, says a United States publication, is sound advice to every one of us at the beginning of 1931. True, but it is good advice at all times. The advice will be just as sound at the end of 1931 as at the beginning, and at all time intervening. The two quotations above demonstrate this, inasmuch as the advice tendered by an outstanding statesman of the second century is repeated by one of our leading world statesman in the twentieth century. The words used may be different, but the meaning is the same.

Do not be whirled about. Keep cool.

When the stream of life is flowing evenly toward its destined port or goal, following a well marked channel, with hardly a ripple on the surface, it is comparatively easy to keep cool. There is nothing to whirl us about, and in the resultant tide of prosperity we pride ourselves on our strength and boast of the stability and greatness of our country.

But it is when, feeling thus safe from a sense of false security, whether in our individual or national life, we reach the rapids, and rocks of disaster loom up ahead, that we are inclined to be whirled about. Then is the time for cool heads, stout hearts and steady hands. It is then that our strength will be proven, and the stability and greatness of our people and our country established.

In the realm of nature, cyclones and tornadoes result from the impact of hot air currents with cooler currents, the one rising, the other descending. Conflict ensues. So in the realm of world economics, business depressions follow inevitably upon periods of abounding prosperity. Just as heated air becomes inflated, so does man in his business enterprise become puffed up. Both ultimately must be deflated, and it is in the process of deflation that trouble comes.

Then is the time to keep cool. When the sun is shining, and storm clouds are absent from the sky, and the barometer is steady, a ship's captain has a comparatively easy time, but when the storm breaks and the hurricane roars, and the ship is tossed and whirled about, it is essential that the captain remain cool and not whirled about.

This old world is just now in a "storm centre." It is passing through it; in time it will emerge. But it is now that we must all keep cool; it is now that it would be fatal to be whirled about. The present is not the time to abandon the old charts which have guided us in the past. Now is not the time to throw the compass overboard, and mutiny against the captain. When we have finally emerged from the present difficulty we should, of course, take stock of our harrowing experience, and endeavor to devise ways and means to prevent or lessen the force of another such storm. But while the storm rages, keep cool.

Keep busy; work harder than ever before and work cheerfully, knowing that thereby the present task will be made the easier to bear; keep the faculty of understanding in full play; take alert advantage of every opportunity. Don't be stampeded and don't be discouraged. Let every one put his shoulder to the wheel and all push together.

To one and all, now and for every day of this year, is presented the admonition of the ancient Philistine leader: "Be strong, and quit yourselves like men."

### Vast Gold Field In Japan

#### Mining Engineers Discover One Of Unprecedented Wealth

A gold field, which is declared to be of unprecedented extent and wealth, has been discovered in Formosa by mining engineers representing the Tokio Imperial University. Dr. Jisaburo Yokobori, head of the expedition, estimates the amount of gold available to aggregate \$2,500,000. The deposits, he said, extend for approximately 150 miles and are alluvial in nature. "I actually picked up gold dust in river beds, in the mountains, on the plains and even on the streets of small villages," Dr. Yokobori said.

### Vegetables From U.S.

#### Canada Imports Large Quantities Of Potatoes and Onions

During the first nine months of 1930, Canadians ate more potatoes and onions grown in the United States than the people of any other foreign country, according to a commerce department report. Despite the counter-vailing duty of 75 cents a hundred-weight instituted in May, Canada took 43 per cent. of the total export crop of potatoes during that period. The Dominion took about 40 per cent. of the total export onion crop.

Canada paid less than a million dollars for the early potatoes and less than \$200,000 for the onions.

### Was Weak and Run Down Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezanon, Alta., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

### Prize For Timothy Seed

#### Robt. Cochrane Of Grand Prairie Awarded C.N.R. Cash Prize

In recognition of having won the world's championship for 1930 in timothy seed, Robert Cochrane, of Grand Prairie, Alta., has been awarded the special Canadian National Railway's cash prize granted at the Chicago International Hay and Grain Show to the Canadian taking first place in that competition.

Announcement has also been made by R. English, of the Canadian National Agricultural Department, that the special prize for top place in alfalfa seed at the same show goes to Nick Chjelte, of Ranier, Alta., who has been a winner in this field for some years. Cochrane, too, has been taking championships at Chicago for many years, the donors of the prize say, but this is the first time he has taken first place as a grower of timothy seed.

### Overwork or Worry

#### Taxes the Health Of Thousands Of Young Girls

In the "teen-age" years when school or office work is exacting and outside activities use up so much energy, many girls undermine their health and spoil their happiness for years to come.

At such a time Dr. Williams' Pink Pills will be found most valuable. They purify and enrich the blood; build up the nerve cells and correct run-down conditions. Concerning them Miss Margaret Torrey, Indian Road, Toronto, Ont., says: "When I was attending high school I suffered a complete breakdown. My heart would palpitate at the least exertion; I could not sleep and nothing I ate agreed with me. I began taking Dr. Williams' Pink Pills and before long I gained in weight and every distressing symptom left me."

Dr. Williams' Pink Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Furs a Necessity

#### Market For Furs Has Not Suffered During Hard Times

The success of any business lies in the market demand. It might have been expected that under existing depression fur farming would suffer heavily. For some reason, however, this has not been the case for good furs, even at the late winter sales, brought fair prices. From this it would appear that furs are more or less a necessity, particularly in the northern countries.—Animal Report, Federal Department of Agriculture.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

### Agriculture Needs Help

Ways and means have been devised for helping all the industries except agriculture. Thought should be directed at once to a policy that will bolster up farming. If agriculture can be made even tolerably prosperous all other industries will derive more benefit from the reflected prosperity than they could ever hope to enjoy from a tariff as high as the peace tower on Parliament Hill.—Farmers' Advocate.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

### What Price Glory

Judging from an incident which occurred recently at the Balfour Technical school, Regina, that city might still be in wastes of snow and ice, for all one gentleman overseas knows about it. The mailman delivered a science catalogue to the technical school mailed from London, England, advertising scientific equipment. It was addressed simply: "Science Master, High School, Regina, North West Territories." What price glory, Saskatchewan?

W. N. U. 1873

### Doctor Lives On Raw Food

#### Advocates Simple Diet In Order To Keep In Good Health

Hard times and unemployment distress could be greatly lessened, according to Dr. Julian P. Thomas, Winnipeg food specialist, because one bushel of wheat and one bushel of oats, together with a little fresh vegetation, would keep a man well nourished for at least a year.

Upon investigating the subject, he finds that some people in all of the older nations have lived as he is now living, some of them attaining such old age that modern folks do not believe the accounts, even when they occur in the Bible. The fact is, Dr. Thomas was first induced to pay attention to his diet through reading the Book of Daniel. His first experiments were started years ago, and many people then laughed at his ideas. But all of these people are now dead, and he is still going strong, with the firm belief that he will live for one or two hundred years, and that each day of his life will be happy and vigorous.

### An Accurate Clock

#### Designed For Timing Football Matches At Highbury, England

A novel clock has been installed on the football grounds at Highbury, England. It is a forty-two minute timepiece, and at half-time and time it sounds an electrically-worked hooter. From one to forty-five minutes are marked on the face in black. From forty-six to ninety they are in red. If a player is injured during the course of a match, the operator can stop the clock at once, for it is worked by ordinary clockwork mechanism. Thus, this clock can be adjusted so as to measure the exact duration of actual play. This mammoth timepiece weighs one and a quarter tons without its frame and is no less than eight feet in diameter. It has been designed for the sole purpose of making the timing of football matches as accurate as possible.

### Natural Gas

The consumption of natural gas in Canada during 1929 for domestic purposes was calculated to be sufficient to displace 640,000 tons of coal.

### COUGHS and COLDS

### Friday the Thirteenth

There will be two more Fridays the thirteenth in 1931 than in 1930. Friday the thirteenth will fall three times in 1931, whereas in 1930 there was only one Friday the thirteenth. In 1931 there will be Fridays the thirteenth in February, March and November.

Nearly 50 warehouses have been built at the Saloniki Free Zone in Greece.

### Five Boys—

#### Best Evidence.

Mrs. Corcoran, of Leigh, writes:—"I suffered with biliousness accompanied by sick headaches for days at a time, and every medicine I tried failed to bring relief. A friend gave me some of your wonderful Carter's Little Liver Pills and the first dose gave me great relief. For three years I have taken them every night as a regulator and I find they prevent these bilious and sick headache attacks. I have five little boys and I give them three or four every week. I have great faith in them." Take Carter's Little Liver Pills. All druggists 25¢ and 75¢ red pkgs.

### PATENTS

## Extension Of Market For Honey In Baking Industry Investigated By National Research Council

Extension of the market for honey in the baking industry would seem to lie in the direction of increasing its use in sweet goods such as sugar cookies, rather than in the manufacture of bread, as has been a common belief, states the report of an investigation in the laboratories of the University of Manitoba, issued by the National Research Council's Associate committee on grain research.

It has been widely held that the substitution of honey for cane sugar in the manufacture of bread would result in a more rapid rate of fermentation and in an improvement in the flavor and keeping-quality of the bread. The study now reported which was made with financial assistance from the National Research Council and the Canadian Wheat Pool by Professor W. F. Geddes and C. A. Winkler, 1930 Wheat Pool research fellow for Manitoba, disproves this suggestion.

The alternative put forward by the investigators is that honey be used where its flavor, higher sweetening power and ability to absorb moisture are particularly advantageous.

It was found that the substitution of honey for commercial cane sugar in various straight-dough bread making formulae made no significant difference in loaf volume, flavor or other bread characteristics, indicating that honey possesses in these circumstances no superiority, but is of equal value when compared on the basis of equivalent sugar content.

### Figured On Yearly Basis

#### Worker's Income Depends On Number Of Working Days

"This city is practically bankrupt." This is a sentence in a letter received from Detroit. It probably means only that Detroit is suffering keenly from the business depression, and that people there are despondent. It is a little singular that with Mr. Ford paying \$7 a day to his employees—or so the world understands—and so setting a fine example to all employers, that there should not be good times in Detroit. Perhaps Mr. Ford only pays this wage to his men when they are working, and it may be that they don't work steadily.

Seven dollars a day don't mean much to a man if he only gets work occasionally. That would mean \$2,135 a year of 305 working days. But if a man's yearly income only averages \$1,200 a year that would be only \$4 a day.

The problem for wage earners is to get a living wage by the year. It would seem that a bricklayer earning \$10 a day would really only be in receipt of \$5 a day if he only worked six months of the year.

Workingmen have to live whether their jobs hold out or not. All their calculations should be on a yearly basis.

#### New Road Composition

A new composition for highways recently discovered in Cape Town, South Africa, is said to cut the cost of road making one-half as compared with ordinary material, double the life of the road and halve the length of time of laying.

"Do you speak French?"  
"Yes, but I don't like it, as I have to think before I speak."—Sondags-plasse-Strix, Stockholm.

W. N. U. 1873

### Financial Expert Gives Cause Of Depression

#### Men Unable To Control Machine They Have Created

"Human beings have not learned how to control the machine they have created," declared Sir Basil Blackett, noted British financial expert, when questioned as to the cause of the present world-wide depression on his arrival at Montreal. Sir Basil is a director of the Bank of England, and chairman of the Imperial and International Communications, Limited.

Financial member on the executive council to the Viceroy of India, Sir Basil is well qualified to speak on that country, which, he said, was ready for a greater measure of responsible government. He expressed pleasure in the appointment of Viscount Willingdon, governor-general of Canada, as the next Viceroy.

### Winnipeg Newspaper Union

(By Eva A. Tingey.)

#### IT'S SWAGGER

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Every woman knows she can't have too many frocks of sports character in her daytime wardrobe.

Today's mode is especially suitable for the college miss and the business woman.

It is in rich dark green tweed mixture with white silk pique trim. The cross-over jabot collar is accented by a brown button. The Cossack cuffs are jaunty.

The seaming at the front of the dress, conceals hip breadth.—The skirt favors slight flared fullness.

There are any number of lovely woollen fabrics that will make up charmingly in this model, as wool jersey, crepe marocain and crepe plain and patterned woollens.

Canton crepe and crepe silk in travel prints are also smart.

This pattern may be obtained in sizes 16 to 20 and 36 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

### Live Stock Improvement

#### Dr. Ruddick, Dominion Dairy Commissioner, Says Matter Needs Attention

Periodical testing of herds and direct efforts at improvement of stock are the most important questions before the dairy farmers of Canada, said Dr. J. A. Ruddick, Dominion Dairy Commissioner, who addressed the annual convention of the Dairy-men's Association of Eastern Ontario.

Farmers were feeling the pinch of low prices, but, he said, the average farmer "is losing very nearly if not quite as much every year by his failure to give attention to this matter as he is through the drop in values at the present time."

"The average annual yield of milk per cow in Canada is now thought to be about 4,500 pounds, or the equivalent of just about 400 pounds of cheese. If this yield were increased by 30 per cent., which is easily possible, it would be equal to an increase of two and one-half cents a pound on the original 400 pounds of cheese at 15 cents a pound after allowing for the cost of manufacture," Dr. Ruddick said.

From reports already received, the commissioner estimated butter production in 1930 was probably 10,000,000 pounds higher than in 1929.

### Loss From Insect Pests

#### Damage To Saskatchewan Crops During 1929 Amounted To Over Ten Million Dollars

The year 1929 is referred to as one comparatively free from spectacular outbreaks of insect pests. But, the annual report of the Dominion Department of Agriculture cites as a conservative estimate of the damage by the major insect pests to the wheat crop in Saskatchewan alone \$10,012,000.

A saving of \$26,000 in one district in Alberta through a local control campaign in connection with the sugar beet crop, and another case of a saving of \$5,900 on one farm alone as the result of control work with the wheat stem sawfly, show rather conclusively the value of the work being carried out under the direction of the Entomological Branch of the Dominion Department of Agriculture.

### Bee-Keeping Profitable In Alberta

Bees have proven to be a very profitable and practical division of agriculture in Alberta and today represent one of the province's youngest and fastest-growing industries, in the opinion of H. L. Luther, head beekeeper at the Lethbridge Dominion Experimental Station.

## Life Story Of J. B. Tyrrell, Eminent Canadian Geologist, Makes Interesting Reading

### Canada's Bacon Trade With Britain Small

#### Dominion Could Supply Market Now Served By Denmark

Canada supplied only 89,169 hundred weight of bacon to the market in Great Britain of the 7,414,020 hundred weight imported in the first 10 months of 1930, according to trade returns. The value of the imports of bacon were \$34,922,063, of which the value of Canadian bacon was \$433,355.

Importation of Canadian hams by Great Britain is quoted as 70,968 hundred weight of the total imports of \$65,035 for the 10 months.

Commenting on the amount of Canadian bacon and hams placed in the British market, W. Waldron, provincial markets commissioner, said recently: "The marketing of Danish bacon in England is carried on to a great extent by the Danish Bacon Company, Smithfield, London, England. Bacon is received by this organization from 49 factories in Denmark. The company has depots at London, Hull, Leith, Liverpool, Manchester, Chester, Barrow, Newcastle, Stoke-on-Trent, Birmingham, Cardiff, Ipswich, Exeter, Portsmouth and Bristol. Denmark has concentrated on the British market, which could be very well served by Canada, as she is well established in England and her bacon is popular."

Mr. Waldron continued to say that the sales of the Danish Bacon Company in England reached \$35,000,000 each year and that all the Danish bacon imported by England was not handled by the bacon company.

### Powdered Milk

#### Saskatchewan Government Will Encourage Manufacture Of Product

The Saskatchewan government is fostering plans to encourage the manufacture of powdered milk, as used extensively in the British Isles, by those poultry raisers who provide the British market with milk-fed chickens. The possibilities of such an industry are emphasized by W. Waldron, provincial markets commissioner, who is back from the World's Poultry Congress in London, England, and who points out that part of the manufactured product could be used for prairie-raised birds.

### WAS IDOL OF FRANCE

Interesting character study of Marshal Joseph Joffre, hero of the Marne and commander-in-chief of French armies 1915-17, who died in Paris following an illness that necessitated amputation of one leg. The marshal, bearer of British Order of Merit, and Grand Order of Legion of Honor, would have been 80 years old January 4.

Scientists, particularly Canadian scientists, are a very modest lot, and it is often hard to get at the facts of lives to extract the real gold of romance which often underlies their careers.

For this reason a biography of that eminent Canadian geologist, J. B. Tyrrell, written by his life-long friend, W. J. Loudon, B.A., will be welcomed in that it tells a remarkably interesting story with praiseworthy clearness and throws much light on this type of explorer-geologist who has made such a big contribution to the development of Canada.

Mr. Loudon tells of the geologist as a boy in Weston, Ontario, wandering after school hours about the woods collecting specimens of rocks and ferns; developing a taste for the use of the revolver and rifle; going to Upper Canada College, where his scientific bent received recognition, and thence to Toronto University, where he annexed the highest honors in geology, chemistry and allied subjects.

Then we see Tyrrell coming to Ottawa to take a position with the Geological Survey and his explorations for many years in the far West and the far North. That was in the early 'eighties, when Calgary and Edmonton were little villages, when buffalo still roamed the plains and thrills aplenty were the lot of the pioneer. Journey after journey was taken into Hudson Bay, to the foothills of the Rockies, through Saskatchewan and Manitoba, and to the outposts north of latitude fifty.

Particularly important were Tyrrell's surveys in the Red River basin. Coal mining in this area was then a dream of the future, and its subsequent development owes much to the splendid reports turned in by this great geologist. He was the first man on the continent to discover the remains of dinosaurs, those gigantic animals which millions of years ago wandered in the foothills of Alberta. At great personal risk he and his surveying party brought the first specimens of these animals to the National Museum.

Tyrrell was sent to the Yukon just before the great gold rush of '98. The lure of gold got into the blood. He resigned his job with the Geological Survey and with a mining friend went out to make his fortune. He nearly starved for a time, then prosperity came his way. Contracts for expert opinion poured in, claims were taken up, companies formed and for some years his income ran to \$30,000 a year.

But the day of placer mining was passing; he failed to get the financial support for his biggest property, he was involved in costly litigation, and by 1905 he decided to bid farewell to the Land of the Midnight Sun. In this part of the story we see Dawson as it really was, a town of wild license, of mad gambling, of hard days when gold was washed in abundance from the river bed followed by wild nights when it flowed into gambling halls, into the clutches of painted women or was squandered on the turn of a card.

Tyrrell came back from the Yukon untainted by the excesses of many who had been lured by the spell of El Dorado, but not much richer in pocket. Later he accepted a very remunerative position as chief geologist for a great Anglo-French mining corporation and continued his explorations and investigations in every part of the Dominion, but particularly in Northern Ontario. A few years before the Great War he made the most important survey of the Hudson Bay district ever undertaken at the request of Sir James Whitney. Still hale and vigorous at 72 he is today recognized as one of the greatest mining and geological experts on the continent.—Ottawa Journal.

### Would Not Need It

A newspaper dated July 26, 1800, just found in Glasgow, Scotland, contains the following item: "Three clergymen after dinner, ate 14 quarts of nuts, and during their sitting drank six bottles of port wine, and no other liquor."

## Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

**Lydia E. Pinkham's Vegetable Compound**  
Lydia E. Pinkham Med. Co., Lynn, Mass., U. S. A.  
Sole Canadian Agents, Toronto, Ontario, Canada.

## WORLD HAPPENINGS BRIEFLY TOLD

An increase of \$5,592,819 (about \$27,117,472) in Britain's adverse trade balance for 1930, as compared with 1929, was revealed in board of trade statistics.

The United States senate immigration committee has referred the Reed resolution providing a two-year ban on immigration to a sub-committee for consideration of changes.

Exclusion of Orientals from ownership or control of Crown lands in B.C., is sought in a petition to the provincial government by the White Canada Association of Vancouver.

Inquiries for Canadian products have been received by L. M. Cosgrove, Canadian trade commissioner to Shanghai, resulting from the Canadian trade delegation's visit.

There should be no fear regarding disposal of the 1930 B.C. canned salmon pack, in the opinion of Major J. A. Motherwell, chief supervisor of fisheries.

Three men were killed and one injured when a Royal Air Force bombing plane crashed into a dyke bank at this village on the border of Nottinghamshire and Lincolnshire, England.

## BREAKS UP GAS IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart, from sourness, acidity, bloating or pain of indigestion. Stop worrying. Whenever you need quick stomach relief, take a little Bisulphate of Magnesia—powder or tablets. It breaks up gas, neutralizes acids and keeps the stomach sweet and strong, and indigestion perfect. At all good drug stores.

### Increased Hog Production

At a meeting of the Alberta Swine Breeders' Association the other day, S. G. Carlyle, livestock commissioner, remarked that present conditions in Western Canada pointed to a 100 per cent. increase in hog production next spring.

### Pay For Position

In some places where tips are abundant, the employee pays the employer for the right to work for him, declared a witness during a recent hearing before the ministry of labor commission in London.

## SUNDAY SCHOOL LESSON

JANUARY 25

### JESUS TEMPTED

Golden Text: "In that He, Himself, hath suffered being tempted, He is able to succor them that are tempted."—Hebrews 2:18.

Lesson: Luke 3:21 to 4:30.

Devotional Reading: Romans 8:31-39.

### Explanations and Comments

The Nature Of Christ's Temptations, verses 1, 2.—Yielding to the control of the Holy Spirit, which had come to Him in a special way at His baptism, Jesus went from the Jordan into the neighboring wilderness, that He might there meditate undisturbed upon the work God had given Him to do. As the story is told in Mark, Jesus seems to have waged His great struggle throughout His wilderness sojourn, but as it is told in Matthew and Luke, the specific temptations seem to have come at the end of the period.

The Temptation To Free Himself From the Limitations Of His Humanity, verses 3, 4.—During a long period Jesus had eaten nothing, and when He was hungry the devil said unto Him, "If Thou art the Son of God, command this stone that it become bread." The word "if" may be taken in the sense of "since": Since you have the power (Jesus had just been assured of this at His baptism), why not make use of it for yourself? The question which Jesus had to settle was, should He for His personal relief use power which was given Him for the sake of the kingdom, or should He trust His Father and accept whatever sufferings His Father might send? His answer was, Thou shalt trust.

The Temptation To Establish an Earthly Kingdom Rather Than a Spiritual Kingdom, verses 5-8.—The Jews were chafing under the Roman yoke. They expected a Messiah who would free them from Rome, and establish an earthly kingdom greater than that of their father David. What might Jesus not accomplish if He yielded to their expectations and established an earthly kingdom? All His countrymen would rally to His side if He adopted the role of a temporal Messiah; for such a Messiah they would sacrifice their lives freely and gladly. The devil showed Him all the kingdoms of the world in a moment of time. Jesus might have all this authority and the glory of them—if He would pay the price. Would it not be a quicker and easier road to travel than the road to Calvary? To seek temporal instead of eternal good, to build up a material instead of a spiritual kingdom, would be to ally Himself with the devil, to worship before him.

The Temptation To Presume Upon God's Call, verses 9-12.—Throughout His ministry Jesus was asked for a "sign" of His divine Sonship, but here at the beginning of His work He settled that question once and for all: conscious as He was of His oneness with the Father, He would not make trial of Him to prove this to the world. "To leap unhurt from the pinnacle of the temple was to rival a mountain goat or a chamois, but it had no connection at all with spiritual power and was no sign of disposition and ability to save men from their sins. To abandon the region of men's actual need and work wonders, not for their relief but for mere display, was to trespass against the Father's love and to mistake the Father's intention."—Marcus Dods.

The Tempter Vanquished, verse 13.—When the devil had completed every temptation, he departed from Him for a season. "The moment that the obedience of the life was established, the mental tumult settled into peace within him."—Phillips Brooks.

### Marine Merger

#### World-Wide United States Shipping Service To Be Created

A world-wide shipping service under the United States flag will be created through a consolidation of interests of the International Mercantile Marine Company and the Roosevelt Steamship Company, which was announced in New York.

The merger, which has been rumored for several months, was announced by P. A. S. Franklin, president of the International Mercantile Marine. The Roosevelt Company, which was organized in 1925, will retain its corporate identity.

Remove all callouses and enlargements from your stock with Douglas' Egyptian Liniment, a wonderful remedy.

### Has Done Some Walking

After walking a distance of more than four times around the world at the Equator during the last 35 years, Fred A. Dullahan, Central Vermont railway messenger, at St. Albans, is beginning his 38th year of hiking. He has averaged 10 miles per day, 300 days per year for 35 years, giving him a total walking mileage of 105,000.

Two states have post offices named Snowflake; Virginia and Arizona.

## NO MORE ECZEMA

Itching Ends Right Away  
"I had eczema for several months. Single application of 'Sootha-Salva' ended it and burn right away. My skin is now clear." Jane Paula.  
"Sootha-Salva" is quickest known relief for eczema. Itching stops; scales go. All druggists.

### Moose Jaw Grain Elevator

#### Dominion Government Grain Elevator Has Huge Storage Capacity

"Although the normal capacity of the Dominion Government grain elevator at Moose Jaw (exclusive of the new 2,000,000 bushel addition) is generally placed at 3,500,000 bushels," says "The Optimizer," "this amount of grain has been exceeded on several occasions during the past few weeks. On October 30th last, a total of 3,584,792 bushels of various grains were in store, while on November 13th there were 3,570,504 bushels and on November 22nd, there were 3,553,604 bushels stored up."

## A Simple Treatment For Children's Colds

Cold in the head is very common at this time of year, especially in the very young. Neglect of a cold is prone to lead to serious consequences. To relieve all congestion of the system is the first step in treating a cold, whether in infants or adults. For the very young, Baby's Own Tablets are the ideal means of doing this. Containing no narcotic or other harmful drugs they soothe the child's fretfulness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving indigestion, constipation and colic. They check diarrhoea; break up colds and simple fevers; promote health-giving sleep and make the dreaded teething period easy. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Exhibition Profit

Operating profit of the Canadian National Exhibition for the past year amounted to \$279,915. The city of Toronto received a cheque from exhibition officials for \$110,491; this and other payments to the city bring the amount turned into the municipal coffers for 1930 up to \$245,850.

### A Noisy Headlight

Some day the captain may turn to the first mate and ask: "Hear that headlight?" Sounds funny, but John Rohlf, marine expert, declares that a new type of headlight with a modified radio beam, combining light and sound, will soon make navigating in fog safe.

### All-Canada Phone System

#### Big Telephone Project To Link Halifax With Vancouver

As a result of the co-operative arrangements between the seven main telephone systems of Canada, the work is now proceeding to realize an all-Canada transcontinental system that will make it possible for a firm in Halifax to speak with one in Vancouver, a distance of 4,319 miles, without using lines outside of the Dominion.

At the present time a long distance call from Montreal to Vancouver would require a connection first with Chicago then with Seattle and from there to Vancouver.

Up to the present time it has been impossible to link western Canada with eastern Canada over an all-Canadian route. This has been partly due to differences in standard equipment of the various companies, but chiefly to the fact that what is known as "long" long distance service requires somewhat different equipment than the "short haul" traffic, such as large size copper wire, etc.

With a view to inaugurating the all-Canada service, large size copper wires have already been installed between Toronto and Winnipeg, while the three government systems of Manitoba, Saskatchewan and Alberta are now at work constructing such heavy duty lines preparatory to the introduction of the all-Canada service. British Columbia and Maritime organizations are also undertaking the work, so that in the near future the construction of the line from coast to coast is expected to be complete.

At the rate the work is at present proceeding, it is anticipated that by the summer of 1931 long distance messages may be transmitted from Halifax to Calgary, and by the spring of 1932, it is expected the entire coast to coast service will be in operation.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

### West Indies and Canada

Canada must assume a temporary role of "big brother" to the British West Indies if the full possibilities of trade between these parts of the Empire are to be attained, says a report issued by the Empire Club of Ottawa following a study of the subject. In other words, the report holds, Canadians must spend a greater sum in the West Indies in order that the Island citizens may be placed in a position where they can become heavy purchasers.

51 Wellington St. W. TORONTO, ONT.

## HUGE TELEGRAPH MERGER MAY BE ARRANGED

Montreal. — Amalgamation in a \$50,000,000 corporation of the respective commercial telegraph systems of the Canadian Pacific Railway and the Canadian National Railway is being considered by the two parties. The Canadian Press understands the proposal has also been put before the Dominion Government at Ottawa. This is the much larger idea behind the statement in Ottawa of Sir Basil Blackett, chairman of Imperial and International Communications, Limited, "that the Canadian Pacific and the Canadian National shall become partners with the I.C. in forming a Canadian overseas communication company, which shall include the Canadian Marconi Company."

The suggested amalgamation presents obvious advantages and no less obvious disadvantages. Economically, there would be the saving in the present duplication from coast to coast in equipment and personnel, but even more important would be the advantages of a strong, all-Canadian corporation, able to meet competition and hold its own against all comers. For neither of the two Canadian commercial telegraph companies is really independent, because each is necessarily allied and more or less dependent upon one or other of the rival United States communication groups, the Western Union and the Postal, which again results in the bulk of overseas going through foreign rather than British channels.

This strong corporation would operate at a much lower cost and therefore at lower rates to the permanent advantage of the Canadian public. At the present time, eight commercial telegraph zones are strung across the Canadian continent, and a message, to pass from one to another and beyond, means an increasingly higher rate, constituting a heavy toll on the economic life of the country. It is probable that such an amalgamation would permit of the cutting down of these eight zones to only three: Eastern zone, from Cape Breton to the Head of the Lakes; Central zone, Head of the Lakes to Regina; Western zone, Regina to Victoria. In other words, commercial telegraph traffic would have to bump over only two cost summits as from coast to coast, instead of over seven, while the great area of Eastern Canada would enjoy a flat rate.

## Opening Of Manitoba's Legislature Announced

January 27 Date Decided On At Cabinet Meeting

Winnipeg, Man.—Manitoba's legislature will open Tuesday, January 27, Premier John Bracken has announced. Decision to commence the session on this date was reached at a cabinet meeting.

Unemployment relief measures loom as an important subject for the session. Re-adjustment of provincial taxation to enable the government to reduce the municipal levy by one-half is another important piece of business to be discussed by the members of the legislature.

### Will Celebrate Diamond Jubilee

Victoria, B.C.—British Columbia will celebrate her diamond jubilee with all the pomp and circumstance befitting the occasion, at the capital of the province on July 20 this year. It was on July 20, 60 years ago, the Crown Colony of British Columbia was formally included in Confederation.

### To End Slavery In Liberia

Washington, D.C.—The United States would be willing to associate itself with the League of Nations in setting up an international commission to end slavery in Liberia, the United News learned recently from a high official.

### U.S. Motor Vehicle Deaths

Chicago.—There was 32,500 motor vehicle deaths in the United States in 1930, the National Safety Council estimated recently. This figure represented an increase of approximately 1,800 deaths over the 1929 period.

W. N. U. 1873

## Revenues Decrease

Ordinary Revenues For Canada Decreased By \$66,000,000 In Nine Months Period

Ottawa, Ont.—Ordinary revenues of Canada decreased by \$66,000,000 approximately for the nine months ended December 31 last, as compared with the corresponding period in 1929. During the past nine months' period, according to the official financial statement issued recently, ordinary revenues totalled \$285,221,051, as against \$351,287,325.

Ordinary expenditures increased by \$15,000,000 in the period under review. For the nine months ended December 31 last, ordinary expenditures amounted to \$280,722,205 as contrasted with \$265,141,767 for the period of 1929.

The statement represents only the receipts and payments which have passed through the books of the department of finance up to the last day of the month.

The net debt of Canada, according to the statement, shows an increase. On December 31 last, the net debt was \$2,193,748,531, as compared with \$2,159,214,730 on December 31, 1929.

## Courage Needed Says Federal Woman Member

Miss MacPhail Thinks Representatives In House Should Follow Their Conscience

Brantford, Ont.—"You can take your conscience into the House of Commons, but to keep it there—oh, boy!" commented Agnes MacPhail, M.P., in an address here, after reviewing the attitude of the members toward a woman colleague.

Miss MacPhail declared that there was great need today in parliament for members to follow their own consciences, and courage to stand for what was right, irrespective of party or the big interests. The House, she said, "badly needed Rt. Hon. Arthur Meighen and Hon. Charles Dunning, two men of courage."

She declared that prosperity could not be secured by injecting life into one or another industry as with a hypodermic needle, but was dependent on the prosperity of all.

## Advocates Fruit Growing

Manitoba Farmer Says More Money In Fruit Than In Grain

Winnipeg, Man.—A pioneer fruit grower of the prairies told delegates to the annual convention of the Manitoba Horticultural Association recently, that fruit growing should be regarded as a profitable field by farmers.

His four acres of crab apples, plum and hybrid cherry trees netted him a greater profit last year, William Shepherd, Rathwell, Man., said, than 300 acres of grain would have. Mr. Shepherd considered fruit farming had a bright future in Manitoba.

### Question Of Gold Payment

Paris, France.—The answer of the French Government to the last British note relating to the payment in gold of the French war loan, which will be remitted soon, will constitute a courteous refusal to submit the differences to the exceptional procedure of arbitration, when normally competent jurisdiction has not been invoked, it was reported recently.

### Is Canadian Firm

Toronto, Ont.—Dumont Motors of Canada, Limited, is now owned, controlled and operated by Canadians, it was announced by Roy D. Kerby, president and general manager of the company. The announcement said the company is now probably the only automobile company in Canada so controlled and managed.

### Racer Sails For States

Southampton, England.—Capt. Malcolm Campbell, British automobile racer, sailed on the "Homer" for New York with his racing car, the Bluebird. If arrangements for his speed trials at Daytona Beach, Fla., at present somewhat confused, are not settled, he said he is ready to go on to New Zealand.

### Feels Germany Breaks Promise

Paris, France.—A conference of ambassadors here is believed to have discussed the question of German armaments, with the impression prevailing that Germany has allegedly failed to fulfill all disarmament promises under the Versailles treaty.

## PHYSICAL EDUCATION EXPERT

Captain Robert Jarman, now of Manitoba, physical education expert, who has just finished a series of demonstrations of his teaching methods in Toronto. He may be brought to Toronto when his Manitoba contract expires.

## Gift From Lord Willingdon

Governor-General Presents Car To Children's Aid Society, Ottawa

Ottawa, Ont.—Ottawa's needy children are to have a handsome automobile of their own—the gift of the departing Governor-General and Viscountess Willingdon.

The generous presentation was made by Their Excellencies to Mrs. C. H. Thoburn, prominently identified with several organizations having to do with child welfare. In tendering the auto, of an expensive make and brought to the Dominion when Lord and Lady Willingdon first took up residence here. Their Excellencies voiced a desire that it be devoted to the use of the children for their various outings.

The car will be used by Ottawa's young folk, under direction of the Children's Aid Society.

## Buys Seat On Grain Exchange

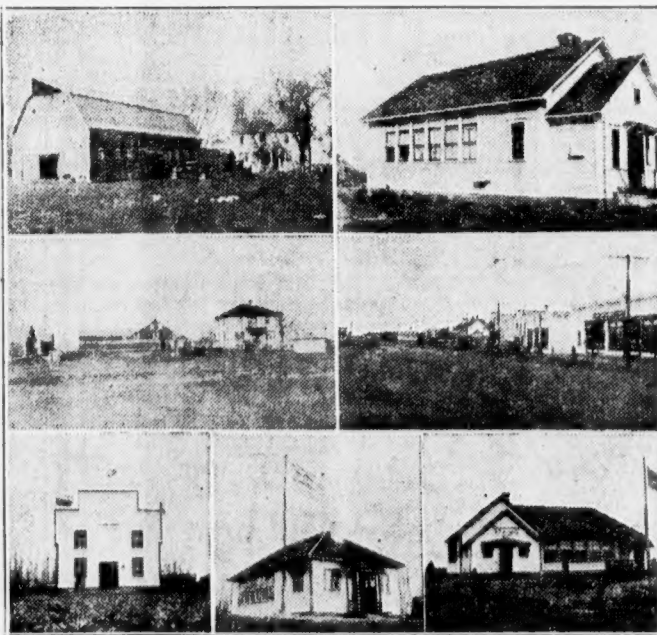

Arthur Cutten, Chicago Operator, Pays Good Price For Entry To Winnipeg Pit

Winnipeg, Man.—With wheat de-throned as king in the Chicago grain pit, big operators there are transferring their activities to the Winnipeg Grain Exchange.

The latest recruit to the local pit is Arthur Cutten, Canadian-born and long called king of the traders, who Tuesday, January 13, bought a seat on the Winnipeg Grain Exchange. While his interests traded here before, this is the first time Mr. Cutten has been a qualified member of the Exchange.

Cutten is understood to have paid \$12,600 for his membership.

## Winning Manitoba Communities in C.N.R. Progress Contests

Completion of the first year's contests in the Canadian National Railways community progress competitions for European settlements in Manitoba placed Rossburn, Ukrainian, first; Steinbach, Mennonite, second; Rhineland, Mennonite, third; Ethelbert, Ukrainian, fourth, and Stuartburn, Ukrainian, fifth. Above pictures show: (1) Residence of Jacob Schollenberg, Rhineland; (2) Blumenort school, Steinbach; (3) A. R. Penner's farm home, Steinbach; (4) Main street of Ethelbert; (5) Community Hall, Rossburn; (6) Byrd school, Rossburn, and (7) King George school, Rossburn.

## British Shipyards Busy

Built Over Third Of World Construction During Last Quarter-Year

London, England.—Well over one-third of the total shipping under construction in the world in the quarter-year ending December 31, was in British shipyards, according to Lloyd's quarterly report. The exact percentage was 39.1 out of a total of 2,328,086 tons. The only figures not taken into account are the comparatively small tonnages building in Russia, which does not supply statistics.

The number of ships being built in Great Britain in the period was 181 with a total tonnage of 908,802. This was a decrease of 207,844 tons from the previous quarter, and 651,352 tons less than in the same period of 1929.

Of the foreign tonnage under construction, 232,030 was recorded in the United States, 281,215 in Germany, 179,677 in Italy, 174,215 in France, and 160,078 in Holland.

## Expect Improvement In Fishing Industry

Comprehensive Survey Being Carried Out By Fisheries Department

Halifax, N.S.—A marked improvement and more stable conditions in the Canadian fishing industry are expected in the reasonably near future by Hon. E. N. Rhodes, minister of fisheries.

Speaking of the survey of the industry being carried out by the department, Hon. Mr. Rhodes said it was of such a comprehensive character that it could not be completed before next August. A study of market conditions at different seasons of the year was one of the factors involved.

## New Commander Appointed

Lieut. Hart Will Take Canadian S.S. Vancouver On Winter Cruise

Ottawa, Ont.—Lieut.-Commander Frederick G. Hart, R.C.N., has been appointed to the command of H.M.C.S. Vancouver. His appointment took effect on January 20 and he will take the "Vancouver" on its winter cruise to United States and other foreign ports, leaving Esquimalt, B.C., on January 26.

Lieut.-Commander Hart joined the Royal Canadian Navy during the war as a cadet at Halifax and was promoted to lieutenant commander in 1928. He qualified for command of destroyers while serving in the Royal Navy in 1929.

### Homestead Entries Increase

Edmonton, Alberta.—According to Provincial Government figures homestead entries and soldiers grants for the month of November amounted to 758 as against 553 for the same period last year.

## BID WILLINGDONS FAREWELL ON LEAVING CANADA

Ottawa, Ont.—Ottawa said "good-bye and good luck" to Their Excellencies Viscount and Viscountess Willingdon. In the brightness of a sparkling sharp Canada winter day, prominent representatives of the political, diplomatic, business and social worlds of the Dominion gathered to bid farewell to the Governor-General and his wife, who, for more than four years, have lived among the Canadian people. Bright uniforms of the soldiers, who constituted travelling escort and guard of honor for Their Excellencies, flags and bunting, and a large wreath of beautiful roses with its message of "Good Luck" added colour to the scene.

Headed by Rt. Hon. R. B. Bennett, prime minister, members of the Dominion cabinet were present to shake the hands of Viscount and Viscountess Willingdon for the last time. Rt. Hon. W. L. Mackenzie King, Liberal leader; Hon. G. Howard Ferguson, newly-appointed high commissioner for Canada in Great Britain; Hon. Vincent Massey, former Canadian minister to Washington, representatives of foreign governments in Ottawa, and others prominent in various walks of life in the Dominion were among the crowd which gathered at the station.

After the last farewells were said, as the train moved slowly away from the carpeted stairway up which Their Excellencies had walked to the rear platform of their private train, the band of the governor-general's foot guards struck up the National Anthem, and in a minute changed to the familiar strains of "Auld Lang Syne." The crowd broke into cheers, Their Excellencies waved farewell, and the train pulled away.

Viscount and Lady Willingdon will spend a couple of months in England before leaving to take up their new duties in India.

From Government House, which Their Excellencies left shortly before noon to drive in the state car of the Central Station, a travelling escort of the Princess Louise Dragoon Guards accompanied them. Boy Scouts lined the drive through which the vice-regal party drove in the Government House grounds. His Excellency was Chief Scout for Canada.

Accompanying Their Excellencies were E. C. Mieville, private secretary, and Mrs. Mieville, Col. Humphrey Snow, comptroller of the household, and members of the staff. Mr. and Mrs. Mieville will go to India with Lord and Lady Willingdon.

## Decision On Freight Rates Re-Affirmed

Railway Board Explains Method Of Computing Reduction In Maritimes

Ottawa, Ont.—A re-affirmation of their former decision as to the correct method of computing how the 20 per cent. cut in maritime freight rates should be arrived at is contained in a judgment of the board of railway commissioners, delivered here.

The judgment decrees that on west-bound freight traffic the point of whose origin lies within the "select region," the reduction shall be calculated on the ratio which the distance between that point of origin and the westerly limit of the "select area," Diamond Junction, bears to the whole distance from the point of origin to the ultimate destination. That is to say, a commodity transported, for example, from Moncton, N.B., to Calgary, Alta., enjoys the 20 per cent. freight reduction not on the entire Moncton-Calgary rate but on that proportion of the Moncton-Calgary rate which that commodity bears on the distance between Moncton and Diamond Junction, or Levis, Que.

### Ferguson High Commissioner

Ottawa, Ont.—Canada's new High Commissioner in Great Britain—Hon. G. Howard Ferguson—became a member of the Canadian Privy Council, January 14. Accompanied by Premier R. B. Bennett, the High Commissioner proceeded to Government House and in the presence of His Excellency took the oath as a privy councillor.

noon each week.

EDOUARD J. ROULEAU,  
Editor and Publisher

We notice in a contemporary that a  
certain organization is putting on a  
hard times dance. We also noticed  
that the admission charge to this af-  
fair was \$1.50. Oh, you hard times.

**BETWEEN THE LINES**

There is one office in Alberta where  
the regular routine of daily correspon-  
dence is never dull or commonplace.  
Instead it holds between the lines  
many a human story that actually  
scintillates with bright thoughts.

Here is the story of a mail bag with  
its hundreds of letters, received by the  
Junior Red Cross Headquarters in Al-  
berta.

One letter came from a small town  
near the mountains, where there are  
many young Canadians of various na-  
tionalities. Under the Junior Red Cross

they are bound together with a com-  
mon interest, in a union of loving  
service to those less fortunate. The  
writer is their teacher who tells us  
that her class call themselves the "Jol-  
ly Helpers" and that they are anxious  
to be kind to the little patients of Red  
Cross in the Children's Hospitals of  
Alberta.

They had a Toy Shower one day at  
school and everyone brought their  
gifts to the teacher's desk, an offering  
of love and in many cases of real  
sacrifice, for in the distant settlements  
toys are none too plentiful. With de-  
light they packed them off to the city  
and each child had the happy satis-  
faction that comes from sharing with  
another, her prized possessions.

**TWO WORDS**

A shrill blast announced the arrival  
of a new soul at the gates of Heaven.  
"Who are you?" came a voice out  
of the mists.

"I am a man," was the reply.

"Whence do you come?"

"I come from Earth."

"What do you bring?"

"Of earthly goods, none."

"Are you then without anything?"

"No, I have brought something."

"What is this thing that you bring?"

"I have brought a fragment of  
knowledge."

"Speak it."

And the soul replied: "I have spent  
seventy years on earth living with  
men and their sons. War, grief and  
horror have I witnessed, I have flamed  
with wrath and indignation. But I  
have learned to feel pity too. And this  
I have learned—Living his own life  
usefully, is a large enough task for  
any single being to embark upon.

Learning this I have also learned that  
the two greatest words the human  
tongue may utter are "JUDGE NOT."

With these, would I tell my fellow  
men who are still on earth, to live.

Again the shrill blast sounded in the  
Heavens. The gates opened and a man  
took his seat beside the Saints.

**Here and There**

(681)

Inaugurated in 1926 in answer to  
the demands of rapidly increasing  
travel between Montreal and Bos-  
ton, the "Red Wing", fast running  
Canadian Pacific night express be-  
tween the two cities will have forty  
minutes cut from its schedule on  
and after January 11, leaving Mont-  
real, forty minutes later than before  
but arriving at Boston at the same  
time as on the former schedule.  
The train will leave the Windsor  
station, Montreal, at 9.55 instead of  
9.15 as heretofore. The "Red Wing"  
is an all-steel train with all equip-  
ment of the latest type.

Appointment of W. R. Patterson  
to be deputy general auditor, Cana-  
dian Pacific Railway, is announced  
by E. E. Lloyd, Comptroller of the  
railway. He is succeeded in his  
late position of auditor of disburse-  
ments by Charles B. Gordon. Mr.  
Patterson is one of the younger  
men holding important offices in  
the Canadian Pacific Railway, hav-  
ing been appointed auditor of dis-  
bursements four years ago at the  
age of 36. Mr. Gordon was com-  
ptroller of the Kettle Valley Railway  
in British Columbia, prior to his  
new appointment.

A motor cycle and side car carry-  
ing two men and towing a man on  
skis, awoke the silence of Lake  
Louise December 28 when at nearly  
6,000 feet altitude it roared around  
an improvised track at a speed  
above 50 miles an hour. It was the  
first time in history that a motor  
cycle has been on Lake Louise; the  
first motor cycle ski-joring that  
has taken place there and the first  
time a motor cycle has travelled  
under its own power from the  
Prairies to Lake Louise in the  
depth of winter.

On the stroke of midnight of De-  
cember 31st, last one of the most  
remarkable railroad careers in the  
Maritime Provinces ended with the  
retirement of Charles H. S. Hender-  
son, dean of Canadian Pacific Rail-  
way conductors. Mr. Henderson  
became a train conductor in 1878,  
at the age of 17 on the New Brun-  
swick railway between St. Stephen  
and Edmundston. He completed  
54 years of service with this rail-  
way and the C. P. R. December 31.  
He has been conductor on the  
trains of three successive presi-  
dents of the Canadian Pacific.

Scheduled to play at least 25  
games in less than three months  
in practically every capital of Eur-  
ope the Manitoba University gra-  
duates hockey team sailed from  
Saint John aboard Canadian Pacific  
liner Melita for Liverpool, Jan-  
uary 2. They will return to Can-  
ada from Liverpool at the end of  
March.

The "Corn Belt" of North Amer-  
ica has in the last few years slowly  
pushed its way north and today  
many parts of the prairie provinces  
of Canada are producing corn of  
different varieties and of high qual-  
ity. At the fifth corn show under  
the auspices of the Saskatchewan  
Corn Growers Association, one of  
the finest exhibits of corn in the  
history of western Canada was on  
display.

CHAPTER IX.—Continued.

"Always, Nick, or I wouldn't have gone with you, of course, I remember just how I felt. I watched you start, and the tears were so near that to stop them I stooped down and began fussing with those jonquills. And then—you came! Oh, I was so afraid you'd see! I had the strangest emotions. I was happy and frightened all in a breath—terribly happy because you'd come, even to say good-bye; and frightened because I feared my heart was in my eyes. I was almost relieved when at last you turned away, though if you hadn't looked back—if you hadn't come back, Nick, I think I should have died."

"Why, my dear, precious little Gay!" Nick's voice was husky. "I never guessed. Aren't—aren't women the very limit? Think of your springing that on me after four whole years! And I was too much of a dunce to even know that you were the one girl in the world—for me. Well, you'll have to admit that it didn't take me long to find it out!"

She looked up at him almost shyly. "Nick—do you still feel that way about me?"

He laughed, and kissed her.

"I wouldn't change a hair of your head, my dear."

"Really, Nick?"

Her voice sounded so sober that he said: "Why should you ask? Haven't

I been a model husband? Come, Gay, let's not get serious. Let's forget every trouble we ever had, and be kids again. If we start now we can have a half hour at The Bird's Nest, and get back in time to kiss the boys good-night."

It was two weeks after this, one Friday evening when Gay and Simeon were sitting together on the porch, that they were interrupted by a call to the telephone.

"It's a long distance for Mrs. Hastings," announced the housekeeper, who had answered the ring.

Instantly Gay's heart pounded. Suppose something had happened to Nick! But it was Nick's own voice that reassured her a moment later.

"That you, Gay? How's every-thing?"

"All right. You frightened me, Nick. What's happened?"

His laugh came back over the wire, sounding so dearly familiar that he seemed very near.

"Nothing—that is—Gay, would you think it terrible if I didn't come up this week?"

"Why?"

Her voice was hollow. Perhaps Nick noticed for he said: Don't sound so mournful! Of course I want to come; but Mrs. Halliday has asked a favor, and I hate to refuse. Her husband's been called away by the death of his mother, and she's expecting friends for Sunday. She'd planned to take them to Mason's Falls. They've got a new car, you know, and for some reason she doesn't want to drive it, so she asked me to go."

"I see," said Gay.

There followed the least little silence, then Nick said: "What do you think, dear? I don't exactly like to refuse. I was there to dinner tonight, and she's waiting now to hear your verdict."

"You know best, Nick. We'll miss you, of course; but if you feel you must—"

"Well, I sort of do feel that way; and next week you'll be coming home. Look here! you understand, Gay, don't you?"

Anxiety was in his voice, and she replied: "Yes I understand. Good-night, Nick. Our time must be more than up."

"Hold on a minute! You're really all right, aren't you? Not sick or anything?"

"Of course."

"And the boys?"

"Oh, they're splendid; but they'll be disappointed not to see their dad."

"You can tell 'em he's disappointed too. Gee! it's good to hear your voice! I'm getting a little tired of subsisting on letters and week-end visits. Good-night, dear."

"Good-night," said Gay quietly, and hung up.

But she didn't move for a minute. She sat there by the telephone, her heart pounding too rapidly. "Why on earth should I mind so much?" she asked herself. "It's ridiculous—childish. It's not right to get dependent on one human being for all your happiness, even if he's your husband. If I let that feeling grow on me I'll become a jailer. Of course Nick couldn't refuse to go with Mrs. Halliday. This is the third time he's dined there; and we'll go home on Wednesday anyway. I ought to be ashamed to mind at all!"

She drew a deep breath and went back to the piazza. It was dark, and Simeon couldn't see her face.

"What's up?" he questioned.

"Nothing, except that Nick can't come tomorrow."

She tried to speak cheerfully, but her mood was not lost on the old man.

"Ain't sick, is he?" he questioned. "No; but our new neighbor has asked a favor he couldn't very well refuse. She has some visitors, and wants him to drive them to Mason's Falls on Sunday."

"Can't that cynical husband o' hers drive a car?"

"She usually drives herself, but she wants a chauffeur for this special trip. Her husband's mother has just died and he's away."

"M—m," growled Simeon. "So while he attends the funeral, she goes gallivantin' with her fine friends? Somehow, Gay, I don't noways take to that neighbor o' yours."

"A breath of relief escaped Gay's lips."

"It does me good to hear you say so, Uncle Sim. I don't take to her, either; yet I can't lay a finger on anything really wrong with her, except her silly talk about children spoiling her career. I don't see that she has much of a career anyway, though she does sing divinely, and paints, too. Nick says I'm unjust to her. Perhaps I am. I'll admit that to see her ordering a man to weed those flower beds she makes such a fuss about, sometimes enrages me. She looks so neat. Nick spoke of it one day, and I just know he was wishing I looked the same, though he didn't say so."

"Good land! dearie. I wouldn't call you no 'Slovenly Peter.'"

"Well," Gay answered, with a rueful laugh, "I feel like one when I look at Mrs. Halliday! It's hard to keep up with everything when you have two babies as young as mine. I know some of my clothes are behind the times; but they're not worth sending to a dressmaker, and I'm too tired to sew myself. But—but I hate to have my husband think me—historic!"

"Shucks!" said the old man gently. "He don't think no such thing."

"He wouldn't have thought so if it hadn't been for Mrs. Halliday," said Gay. "She's not a product of Bakersville, and she's different from the few summer people who come to us. I just can't understand the Hallidays choosing such a place. They don't fit in—never will, I am sure. I suppose they'll just upset us a bit and go away—when she tires of her garden."

"The sooner, the better," growled Simeon below his breath; then added cheerfully: "Now, dearie, don't you go to gettin' worried about yer looks. I bet if you was to ask Nick outright he'd say you'd got Mrs. Halliday beat to a frazzle."

He rocked quietly for a while. Save for the frogs down by the mill pond, the night was quiet, until, suddenly, a whip-poor-will raised its voice.

"First I've heard this year," said Simeon quietly; then: "Dearie, if I was to make you a little present—say a hundred dollars I got clutterin' up my desk, couldn't you buy some o' them airy nothin's like Mrs. Halliday's, without the bother o' goin' to a dressmaker? Seems like I seen catalogues o' most everything under heaven, from this new-fangled underwear they call undies, to party dresses that ain't got no backs. Not that I'm advisin' you to dress that-a-way; but you can't be young only once, Gay, and I wouldn't want to think you was goin' without things you hanker for—not while I don't know what to do with my spare cash."

For a minute Gay did not speak, then she arose impulsively, and seating herself upon the old man's knee, kissed his cheek.

"Uncle Sim—you're the most understanding person in the world. My first thought, after gratitude to you, was that I mustn't take a gift like that from anybody; but I've changed my mind because I know it will make you happy to give happiness to me. I don't say I'll spend it all on clothes;

but I'll freshen up a bit, and get some things the children need.  
(To Be Continued.)

## Sight-Sound Dramatic Production Broadcast

Actors In Studio At Chicago Make  
Television History

Side-stepping sinister looking equipment, a small audience squeezed in between humming machinery in the control room of station W9XAP and watched from behind the scenes what is believed to have been the world premier broadcast of a synchronized sight-sound dramatic production.

Irene Wicker, Vinton Haworth and Douglas Hope, made television history in their appearance in "The Maker of Dreams."

The play went on the air to be received by those with a television and radio combination set, the effect being a close relative to a small talkie, but not without many flaws as yet. But the experts said "Give science time."

Everything possible was done to outlaw noise because the creak of shoe-leather would have given the impression of artillery in action; the men played in stockinged feet. The girls wore soft sandals.

Persian Balm is the one true family aid for skin health and beauty. Aids the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and caresses the skin and creates complexion of surpassing loveliness.

## Thought Converted Into Electric Energy

Invention Of German Professor Something Entirely New

A machine which is said to register thought by curves has been invented by Professor Hans Berger, of the University of Jena, Germany. The invention converts thought into electric energy, which is registered on a chart. The "thought chart" looks like a weather or earthquake chart. Deep thinking shows violent up and downs, shallow thinking merely a zig-zag line. So far, nobody has been able to read the thoughts themselves, and further research will be made to discover whether an interpretation of the curve is possible.

History Lecturer—"Can any of you tell me what makes the Tower of Pisa lean?"

Corpulent Lady: "I don't know, or I'd take some myself."

## LOSE YOUR FAT This sensible way

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed—you get the needed exercise.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

## Little Helps For This Week

"Thou wilt show me the path of life; in Thy presence is fulness of joy."—Psalm xvi. 11.

I need Thy presence every passing hour:

What but Thy grace can foil the tempter's power?  
Who like Thyself my guide and stay can be?

Through cloud and sunshine, oh, abide with me.

You remember the old story of how Michael Angelo wore ever on his forehead, fastened in his artist's cap, a lighted candle, which always shone brightly on his work, and kept his shadow from falling on it. If I could always have thus the light of Christ's felt presence ever falling on my path, keeping the shadow of self behind and out of sight, ah, what an easy climb it would be then!—In the Mists.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Eclectic Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

## Valuable Manuscript

A valuable Syriac manuscript in the University of Chicago weighs 50 pounds and its parchment pages are expected to reveal new light on Christianity in the Dark Ages, for it deals with "A Collection of Selected Discourses On All the Feasts Composed by Orthodox Holy Fathers."

# ASPIRIN

TRADE-MARK REG.

Accept only "Aspirin" package which contains proven directions. Handy "Aspirin" boxes of 12 tablets. Also bottles of 24 and 100—All druggists.

## ACID after meals

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable gas or headaches.

When your food ferments, "disagrees," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting soothing fluid neutralizes many times its volume in acid. It restores the proper alkaline balance to an acid-

soaked stomach and bowels—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headaches, nausea or biliousness indicates an over-acid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All druggists in the Dominion sell it in 50c bottles.

Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the name Phillips on the bottle.

## TOWN & COUNTY Personalographs

Mr. and Mrs. J. J. Greenan, S. J. Garrett and Guy Shell motored into Calgary on Monday and returned Tuesday evening.

The Sewing Circle held a farewell party for the Misses Annie MacDonald and Ruth Ramsay, at the home of Mrs. H. C. Willson on Monday night of this week. The girls were presented with sewing baskets by the members of the Circle. Annie MacDonald will leave shortly to live in Medicine Hat and Ruth Ramsay expects to go in training at Edmonton for a nurse.

Jas. Baird returned to Calgary on Wednesday last after spending a few days in Carbon.

We received the annual renewal subscription to The Chronicle from Harry Thorburn at Legal, Alta., and he extends best wishes to his many old

friends in Carbon.

The weather still remains warm and we have the odd dust storm every once in a while. These dust storms have certainly played havoc with the skating ice, as was evidenced by the hockey game here on Tuesday night.

Mr. and Mrs. R. Greenhalgh celebrated their silver wedding anniversary on Tuesday of this week.

## CARD OF THANKS

The girls of the Sewing Circle take this opportunity of thanking Mrs. H.C. Willson for her kind donation of her home and refreshments for the farewell party held there on Monday night.
